

Senior Interior Designer

Are you looking to leverage your passion to bring client stories to life? Are you seeking a great work environment and quality of life balance? ALSC Architects is seeking an enthusiastic, collaborative Senior Interior Designer to join our team.

ALSC is a team of creative professionals—who lead a clear principle-based design process delivering simple yet powerful architectural solutions authentic to our client's mission, culture and vision. We believe design has a profound opportunity and responsibility to inspire and make a difference in our lives.

Job Description

We are seeking a Senior Interior Designer with exceptional design skills, the ability to work in our collaborative studio on a variety of project types and sizes, design leadership, and the ability to mentor other interior designers. If you are a great communicator with strong conceptual ideas and have a passion for design, you may be a good fit to join our team. Through research, observation, collaboration and storytelling, the Senior Interior Designer will help us continue to grow our successful practice.

Responsibilities

- Engage our clients through meetings and presentations
- Develop programming, space planning, conceptual designs, design development and production
- Contribute to the execution of overall design concepts and finish palettes through all phases of design, in collaboration with studio lead and other designers
- Coordination with technical team and consultants
- Engage with our teams on construction administration as needed
- Provide mentorship to other interior designers

Qualifications

- 10+ years professional experience including a proven track record of leading the design of large-scale projects such as K-12 and Higher Education facilities, Sports + Rec, Healthcare, or commercial/mixed-use projects
- Bachelors or Master's degree in Interior Design or Interior Architecture from an accredited program
- Experience required in all aspects of interior design including concept design, programming, space planning, color and material selection, documentation, graphic presentations, material research and selection, and FF&E selection and specification
- Revit experience required. Working proficiency in AutoCAD, Photoshop, InDesign, SketchUp (or other 3D software) and rendering skills a must
- Excellent design and graphic skills, with the ability to conceptualize and design complex projects from pre-design through construction documents phases
- NCIDQ certification strongly preferred

Benefits

- A fun, collaborative working environment
- Employer paid medical/vision insurance (employee + family) and dental, life and disability (employee)
- Eight paid holidays, sick leave, and two weeks' vacation to start
- 401K retirement plan
- Defined contribution retirement plan
- Optional performance related bonuses
- Continuing education stipend

ALSC Architects is an EEO/AAP employer. Qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, disability, marital status, veteran status, or any other protected characteristic under applicable law.
